A Discussion was held on the repairing of the berm. Ray requested members to present any ideas for raising the top even higher.

NEW BUSINESS

A discussion was held on the repair of the Light at the entrance. A new bulb is needed but a replacement has not been found. Gerald Hickey took the old bulb for his son the electrician to examine and determine a replacement source.

The need for IDPA targets was discussed. Due to the future change to the targets that the IDPA is proposing, we will only order one Box (100) of the old style at a time.

A discussion was held about possibly adding another electric meter on the transformer pole to provide a separate source of power to the new shed, etc. It was agreed that a new 200 amp service be installed to replace the existing service. Dave Michaels will take the lead to contact two electricians for estimates for this work.

Discussion was held on adding an additional Sunday in the month for a second Orientation Class. This is to lower the number of attendees to a manageable level.

Treasurer Feg will come up with a new technique for issuing badges to new members.

MS&P to adjourn at 3:52 p.m.

Respectfully submitted - John Bentley
